

PRESS RELEASE

Checkcharts Ltd is launching a new chart to cover Falmouth & Helford River

The Lymington based racing chart company is increasing its range with a new addition for the 2012 season: the recently launched *Falmouth & Helford River Checkchart* is fast becoming available in local chandleries and online.

Falmouth and Helford yacht racers can now benefit from all the essential features of the charts, such as visual location of all racing marks, life-like buoy representation, grid lines and the distance and course bearings table on the back,

Simon and Marion Nuding bought the company in 2010 and launched a series of exciting improvements to the Solent charts last year.

Simon said 'The yacht racing community isn't limited to the Solent. Many other areas are on the cards in the near future where yacht racers will be able to enjoy access to this critical piece of kit. We fully expect the *Falmouth & Helford River Checkchart* to become a Falmouth Week must-have in the next few years.'
